WORK EXPERIENCE

- **From November 1980** **Architectural designer and consultant of public administration - January 2008: CEO of studiodercole srl.**

Proven expertise in architectural design and improved energy efficiency of buildings. Excellent communication skills in keeping clients abreast of progress to ensure that project designs match their needs.

- **Memberships** Member of the Association of Architects of Pescara (Italy) at No. 656, since 1980.
- **Main activities and responsibilities** Design of public works and project manager; restoration of architectural heritage ; recovery of historical towns, design urban areas infrastructures, street furniture; consultant for public works. validations expert in Public-Private Partnership (PPP).

- **Company Profiles** **studiodercole** pubblico & privato Set up in 1980, Studio D'Ercole focused initially on architectural design before moving into the public works sector to provide specialist services to public institutions/companies. Studio D'Ercole has been contributing to the modernisation of Italy's public administration, striving for the constant improvement of the professional services we offer. Key projects commissioned include public works' planning and project management, consultancy in joint public-private partnerships, project auditing and management, and management construction. Our main areas of expertise are: infrastructure and urban design, sports facilities, restoration and reclaiming historic and architectural heritage buildings, and bioclimatic building design.

To respond to an increasingly intricate, complex and global market, in 2008 the practice was converted to the engineering design company studiodercole srl able to offer a broad range of professional services to public authorities and enterprises. Acting as the sole interface for the

main client/investor, our in-house expertise enables us to deliver all design, contractual and management aspects of public and private works with an interdisciplinary, integrated and collaborative approach.

Our service consists of the following broad categories of activities:

EU FINANCE AND FEASIBILITY STUDIES

Investors can benefit from our experience in this area when making decisions on the economic and financial sustainability of potential investments.

- *Environmental, urban and construction profile analysis.*
- *Infrastructures and public works feasibility studies.*
- *Project finance and Public and Private Partnership (PPP).*
- *National heritage building restoration and regeneration plans.*
- *Cost-benefit analysis and study of the financial sustainability of investments.*
- *Draft of EU projects;*

PUBLIC-PRIVATE WORKS Planning and PROJECT management

We started out in this field in 1981 and have progressed to the coordination of complex projects.

- *3D plans and network infrastructures in urban applications.*
- *Surveys of historical buildings, monuments and archaeological areas.*
- *Design of new public buildings with a place-making approach.*
- *Restoration and reclaiming historical buildings and monuments.*
- *Regeneration of urban spaces.*
- *Bioclimatic design to redefine the carbon footprint of buildings.*
- *Safety plans and coordination.*
- *Project management and accounting in public works.*
- *Management construction.*

PUBLIC ADMINISTRATION PARTNER

Our specific experience in the administrative side of project management for Pescara City Council Works Department and in general management for ATER Pescara (Public agency for Social Housing Company) mean we can offer public authorities a highly qualified and skilled service.

- *Support to the Public Tender Manager.*
- *Assistance in public-private partnerships.*
- *Support in the contractor selection process.*
- *Professional training in the public works field.*

PROJECT AUDITING FOR APPROVAL PURPOSES

Drawing on our range of skills and experience, **studiodercole srl** added a new area of activity to the company profile. Differing from our existing specialties, this completely new area audits public works projects to obtain the approval of the local council Public Tender Manager.

We are UN EN ISO 9001/2008 certified in this field.

- *Project auditing for approval, in accordance with Italian Leg. Decree No.163/06.*

To sum up, at Studiodercole we aim to deliver a broad range of professional services specifically for public authorities and enterprises; our approach is interdisciplinary, integrated and collaborative, meaning we can act as the sole interface for the main client/investor on the delivery of single projects of highly diverse scope.
